(Signature Required)

(Title)

(Please Print or Type Name Clearly)

(Date)

- **This application must be accompanied by the product registration list on the reverse side, applicable registration fees, current lab analysis of waste-derived products and a current copy of the product label for each of the products listed on this application.**

Product Listing, Page 2

- Chapter 22, Title 22, Section 22-2205(7), Idaho Code, states: “Any waste-derived soil amendment or waste-derived plant amendment distributed as a single ingredient product or blended with other soil amendments or plant amendment ingredients must be identified as “waste-derived soil amendment or plant amendment” by the applicant in the application for registration.” Applications including waste-derived products must be accompanied by complete lab analysis, including but not limited to: arsenic (As), cadmium (Cd), mercury (Hg), lead (Pb), and selenium (Se).
- The following waste-derived products are exempt from this requirement: biosolids, composted manure, bone and blood meal, fish emulsion, vegetative and food wastes, and new gypsum boards (not collected from demolition sites).

PLEASE COMPLETE THE INFORMATION BELOW FOR EACH PRODUCT:

1. Brand Name:	Dry or Liquid?
Product Name:	
Package Sizes in Net Weight:	Is this product waste-derived?
2. Brand Name:	Dry or Liquid?
Product Name:	
Package Sizes in Net Weight:	Is this product waste-derived?
